Details

DIFFERENCES:

Floorstanding / suspended storage units

- The finishing top is set back from the front (top depth 473 mm)
- The fronts are shaped to allow the opening.
- In case of two or more fronts, the upper one will be shaped, the others will have a pressure opening.

Finishes floorstanding / suspended storage units:

Structure:

- melamine ardesia

Backs:

- melamine ardesia

Fronts:

- lacquer: mat colours - metal
- wood: gold oak - walnut c - black elm - Spessart oak

Plinth / Upper profile: metal: ardesia mat - champagne mat

Finishes floorstanding / suspended open storage units:

Structure: lacquer: mat colours

Backs:

- mat lacquer colours (always included in the price)

Plinth / Upper profile: metal: ardesia mat - champagne mat

Floorstanding / suspended storage units Living

- The finishing top overcomes the fronts (top depth 480 mm)
- Doors with handle.
- Drawers with pressure opening.

Finishes floorstanding / suspended storage units Living:

Technical description of materials

STORAGE UNITS STRUCTURE (BASE - SIDES - COVER)

Material	panel of wooden particles melamine
Thickness	20 mm
Edge	ABS
Features	available for floor positioning with aluminium painted plinth with leveler or for wall fixing and SURFACE wall panelling with height adjustable wall brackets.

STORAGE UNITS LIVING STRUCTURE (BASE - SIDES - COVER)

Material	panel of wooden particles melamine - in veneer - lacquer
Thickness	20 mm
Edge	ABS
Features	available for floor positioning with aluminium painted plinth with leveler or for wall fixing and SURFACE wall panelling with height adjustable wall brackets.

BACKS

Material	panel of wooden particles melamine
Thickness	10 mm

STORAGE UNITS LIVING BACKS

Material	panel of wooden particles melamine, in veneer - lacquer - covered in fabric
Thickness	10 - 15 - 20 mm

WOODEN SHELVES

Material	panel of wooden particles melamine - in veneer - lacquer - glass
Thickness	20 mm - 8 mm
Edge	ABS

WOODEN LEAF DOOR

Material	panel of wooden particles in veneer - lacquer
Thickness	20 mm
Edge	in veneer - lacquer
Features	soft closing mechanism

GLASS LEAF DOOR

Material	aluminium painted profile, glass th. 4 mm with painted perimeter band
Thickness	20 mm
Features	pressure opening

TAPE LEAF DOOR

Material external frame	painted aluminium and glass
Material inner frame and frame	aluminium veneered slats
Thickness	20 mm
Features	soft closing mechanism, removable frame with magnetic fixing

FINISHING TOP

Material	panel of wooden particles in veneer - lacquer - marble
Thickness	14 mm - 18 mm

HANGING THICK SHELF

Material	panel of wooden particles and medium density in veneer - lacquer
Thickness	60 mm
Features	for wall fixing with height adjustable wall brackets.

DRAWER FRONT/WOODEN FLAP DOOR FRONT

Material	panel of wooden particles in veneer - lacquer
Thickness	20 mm
Edge	in veneer - ABS

DRAWERS STRUCTURE

Material	panel of wooden particles melamine
Sides thickness	14 mm
Back thickness	14 mm
Bottom thickness	6 mm
Edge	ABS
Features	metal guides with total pulling-out ball bearings and soft closing mechanism with pressure opening.

LATERAL SIDES

Material	stratified panel in veneer - lacquer
Thickness	8 mm

STORAGE UNITS STRUCTURE FOR HANGING STORAGE UNITS

Material	medium density panel in veneer - lacquer
Structure thickness	20 mm
Back thickness	10 mm
Edge	ABS
Features	for wall fixing with height adjustable wall brackets.

WOODEN LEAF DOOR FOR HANGING STORAGE UNITS

Material	panel of wooden particles in veneer - lacquer
Thickness	20 mm
Edge	in veneer - ABS
Features	pressure opening

GLASS LEAF DOOR FOR HANGING STORAGE UNITS

Material	aluminium painted profile and glass th 4 mm
Thickness	20 mm
Features	pressure opening

SHELF FOR SURFACE WALL PANELLING

Material	aluminium plated medium density fibre panel 2 sides lacquer - glass
Thickness	8 mm

OPEN COMPARTMENTS - OPEN COMPARTMENTS LIVING STRUCTURE

Material	aluminium plated medium density fibre panel 2 sides lacquer
Thickness	8 mm
Edge	ABS
Features	equipped for adjustable wall fixing.

OPEN COMPARTMENTS - OPEN COMPARTMENTS LIVING BACK

Material	medium density fibre panel melamine - in veneer - lacquer
Thickness	15 mm
Edge	ABS + rubber

Notes

Reductions / cuts

Reductions and special manufacturing are not possible for all the other elements of the system.

Notes for order development

Unless otherwise specified:

- plinth / profiles / handles / glass doors frame in ardesia
- lateral sides in the same finish of the fronts
- finishing top in the same finish of the fronts
- storage units Living inner structure / backs in melamine ardesia
- open storage units Living backs in mat lacquer in the same finish of the structure
- hanging storage units backs in the same finish of the structure
- bookshelves backs in mat lacquer
- inner equipment excluded
- lamps excluded.
