

Sherazade Outdoor

Francesco Binfaré

General description:

Relax in total absence of constraints, inspired by oriental influences. Comfort assured by the softness of the rectangular sommier padded in Gellyfoam®, accompanied by a series of supports of different thickness: two triangular Thai cushions to use as back supports, two large square pillows as enveloping backrests, one rectangular and one cylinder as soft armrests.

Use:

In the absence of a rigid division between left and right, front and back, the configuration is free to satisfy the desires of the moment: from formal sitting to big bed, from face to face to the most comfortable positions for reading and resting.

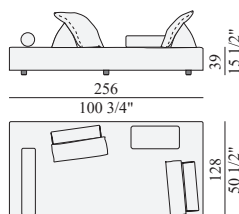

Technical description:

Structure in marine poplar plywood. Padding in Gellyfoam® and synthetic wadding. Undercover in water-repellent synthetic wadding. Cushions' padding in expanded polyurethane foam and synthetic wadding. Removable cover.
