DESCRIPTION

Turn Around floor shares the same design principles of Turn Around system starting from parameters of sustainability, reduction, lightness, integration, optoelectronic intelligence, application freedom and interaction.
Like the system it is perfect for a last-minute choice able to add dynamic light quality to the space.
The slender and minimal structure integrates two different lighting solutions to meet the needs of any space, from office workstations to meeting rooms, hospitality or residential spaces.
Turn Around floor and Turn Around floor square combine to the direct controlled emission also an indirect diffuse emission which can be managed separately both from the luminaire body and by Artemide App.
The high efficiency and the flexibility of emissions management make Turn Around floor an optimal solution for intelligent energy saving that enhances the experience and awareness of the user.
